These respondents reported to us that they enrolled in their Bauman College program for personal reasons, not for career purposes.

<sup>4</sup> “Graduates available for employment” means the number of graduates minus the number of graduates unavailable for employment. “Graduates unavailable for employment” means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution. <sup>5</sup> “Graduates employed in the field” means graduates who are gainfully employed in a single position for which the institution represents the program prepares graduates within six months after a student completes the applicable educational program.

<sup>6</sup> Placement Rate is calculated by dividing the number of graduates employed in the field by the number of graduates available for employment. For 2013 we had a response of 84%. For 2014 we had a response rate of 85%. The students who did not respond are assumed by the BPPE to have not gained employment.
